

Agam Kapoor

FRONT END WEB DEVELOPER

Skilled front-end developer with experience in React, Redux, JavaScript, HTML, CSS, Material UI, Firebase, Tailwind CSS, and have build projects using MERN stack. I have a strong foundation in software development principles and am committed to delivering high-quality, user-centric solutions. I have a proven track record of collaborating effectively with cross-functional teams and developing scalable, maintainable code. I'm also dedicated to staying up-to-date with the latest industry trends and enjoy contributing to open-source projects. If you're looking for a skilled and motivated front-end developer to join your team, I'd love to hear from you

Tech-Stack: REACT | HTML | CSS | JavaScript | GitHub

WORK EXPERIENCE

Punjab National Bank
Assistant
(April 30, 2019 - December 30, 2022)

- Job Responsibilities :**
- Utilized React to develop a Human Resource Management application, which stored employee data and enabled efficient retrieval and analysis of employee information.
 - Collaborated with cross-functional teams to design and implement loan management applications using React, Redux, and other front-end technologies, resulting in improved loan processing times and customer satisfaction.
 - Provided technical support to end-users, resolved technical issues, and demonstrated strong problem-solving skills, ensuring seamless operation of banking applications.
 - Demonstrated proficiency in front-end technologies such as HTML, CSS, and JavaScript, as well as expertise in Material UI and Tailwind CSS, to deliver high-quality, user-centric solutions.
 - Worked closely with IT support departments to identify and address technical issues, improve system performance, and ensure optimal functionality of front-end applications.
